LETTERS TO THE EDITOR

Torrance, Calif. April 25, 1935. Mr. Grover Whyte, Editor, Torrance Herald. My dear Sir:

Millions of the able minds of America urge the adoption of the Townsend Plan because it means that delinquent mortgages, taxes and assessments will be immediately paid; it means that doctors' bills, dentists' bills, optometrists' bills, gasoline and repair bills, gas, water, electric light and telephone bills will be paid; it means that millions of the best citizens of the United States who are suffering from lack of sufficient food, cold from the lack of sufficient clothing, ill from the lack of proper medical care, almost blind from the lack of new glasses, will immediately secure these things; it means much needed furniture, kitchen utensils, refrigerators, vacuum cleaners, automobiles and radios will be bought, houses will be built or repaired and millions of idle workers will be employed. It means that the business of the meat and vegetable markets, grocery, dry goods, furniture, clothing and other stores will instantly be increased and that the masses will be assured the necessities of life for all time.

It means that the tax from these profitable transactions and which make the Townsend Plan possible, will be handed right back to the trades people from which it came; that they will make another profit on the next and succeeding transactions and it means that more than 50 channels of commerce and industry will be thrown wide open to renewed activity, and a new lease of life.

It means that idle money will be brought out of hiding and put to work; that business stagnation will be removed, the dam of depression broken and that depression can never again return while the Townsend Plan is in operation; it means the removal of that fear again which has dulled the initiative and efficiency of millions of the finest minds in the world and, above all things, it means restitution to the noble men and women who, by their physical work and by their money, created the vast wealth of this great nation.

The proponents of the Townsend Plan, Mr. Editor and Business Man, assert that they can substantiate all these claims and you owe it to yourself and humanity to fully investigate them. The Torrance Townsend Club No. 2, cordially invites you, Mr. Whyte, the members of the city government from the mayor on down, and the business men and women of Torrance to attend the next meeting of the club on Thursday evening at 7:30 p. m., May 9, 1935, in the Methodist church, and hear a good speaker who will explain the plan thoroughly and answer all your questions in a satisfactory manner. It twenty-five million people are wrong they should know it; if they are right you should know it.

Sincerely yours, TOWNSEND CLUB NO. 1. By DAVID TURNER, President.

Please publish this in your paper.

April 29, 1935. To the Editor of the Torrance Herald:

In regard to Cabrillo avenue, much has been said pro and con but not much accomplished. Since there is being some effort made at the present time, we are naturally anxious to bring this project to a successful conclusion, in view of the fact that prospects to procure federal or state aid are bright at this time. We have no way of knowing whether those who have this proposed improvement in charge, are doing all that can be done, or whether they are simply marking time, as has been done in the past.

It is not my intention to be unjust in my criticism, because there may be an earnest effort made at this time. On account of certain things which have transpired, however, it behooves us to get at this from every possible angle, in order that a failure to make Cabrillo avenue a through highway will be an impossibility.

At this time it may be in order to explain why I have lost faith in some of the promises in reference to this most needed improvement. During the time of the installation of the ornamental lights, the property holders south of Carson street learned that the intention was to improve Cabrillo avenue to Carson street only; from Carson street south, the trolley poles would remain in the center only improvement would be small of the street as they were. The lights far apart. We could not

understand the reason for such discrimination, especially when we had not been consulted in the matter. So we went to see about it and the only excuse that was given was that the people south of Carson street were poorer and did not wish to have this extra expense added. We at once got up a petition to find out the consensus of opinion. It fell to my lot to circulate this petition with the result that all property owners signed in favor as it now is. Visualize, if you please, had the original plan been carried out. Besides doing infinite harm to those on this street, it would also be a detriment and an eyesore to the whole town. That anybody should be so considerate for the welfare of the poor is news to me. From my observation I have found quite the opposite.

In view of all this and experience the property owners south of Carson street wish to impress upon the city council their mind in this matter and expect of them to do all in their power to forever solve the problem of Cabrillo avenue. And since the entire city will benefit from this development, we urge all to lend their assistance. I have come to the conclusion that, in order to gain our point, it will be necessary for the taxpayers of our city to get behind this movement with all power at their disposal. Whatever improvement is undertaken, must go beyond Carson; otherwise the problem remains unsolved. EDWARD L. GUTH.

QUESTIONS MAYOR ON WATER ISSUE

May 1, 1935 Torrance, California.

Editor Torrance Herald Dear Sir:

I would like to supplement Mayor Ludlow's facts and figures by answering some of the following:

Mayor Ludlow fails to mention that there will be about \$17,000 annual interest to pay on money borrowed. He does not mention that there are only about 1,300 water users in water district No. 1, and that the net income per year from that water system does not exceed \$18,000. (South Torrance, Walteria and the MacDonald Tract are not served by water district No. 1. They receive water at a much cheaper rate than "old Torrance.") He does not mention the Metropolitan Water System or the large amount of money we have already paid into this system.

What does he intend to do with those letters written by convicts who are under suspicion?

All convicts of the institution are under specific rules in regard to their mail. Only Grade A inmates are allowed to write once a week, others once every two weeks. Postage on the letters is paid by the state unless the convicts themselves have money. All letters going out are run through a postal meter and enclosed in "window" envelopes.

I listen to petitions. No, they did not refuse, they ignored them. They agreed to send a representative to talk to us, but got cold feet for fear we would find out something.

I sat in council meeting recently and heard Mr. Ludlow ask Mr. Leonard about a reduction of water rates. Mr. Leonard promised at that time to have the figures at the next meeting, but no mention was made of it after that. More camouflage!

I am not backing the recall for any personal or political reasons. I hope for no gain to myself except as it affects the common good of every citizen and taxpayer of Torrance.

It seems to me that the councilmen are displaying their dictatorial attitude in progressing with the building of the system and proceeding to encumber our property with an additional \$10,000, at a time when it is very doubtful that the people will sanction such expenditures. As a voter and property owner, I honestly feel that the wishes of the majority are not being respected.

Yours very truly, H. P. RAYMOND.

Torrance, Calif. April 25, 1935.

The Torrance Herald, Torrance, Calif. Gentlemen:

The Ferr Avenue P. T. A. desires to thank you for the space you have given our association during the past year. Our meetings were given a prominent place in your paper, and we greatly appreciate the same.

Sincerely, MRS. J. E. HITCHCOCK, Secretary.

Handling Pen Mail Is Great Problem

JOLIET, Ill. (U.P.)—Handling of the mail is one of the greatest problems officials of the Illinois State Penitentiary here are confronted with. A total of 14,000 letters, all of which must be censored, pass through the mail room at the prison each week.

Code letters and invisible inks play no little part in the work of the censors, although according to Warden Frank D. Whitely, tests for invisible ink are made only of those letters written by convicts who are under suspicion.

All convicts of the institution are under specific rules in regard to their mail. Only Grade A inmates are allowed to write once a week, others once every two weeks. Postage on the letters is paid by the state unless the convicts themselves have money. All letters going out are run through a postal meter and enclosed in "window" envelopes.

I listen to petitions. No, they did not refuse, they ignored them. They agreed to send a representative to talk to us, but got cold feet for fear we would find out something.
